PROJECTS

QuizX — *Research project@ MCT*

How do you build a performant real-time live stream collaboration tool using HTMX and a bun-ElysiaJS backend?

→ quizx.jarnedel.dev

Jumping Jaws — *Team project @ MCT*

Jumping Jaws is a co-op game where you have to steer a boat through a river full of obstacles. Avoid obstacles by jumping on a trampoline.

League of Statistics — *Interaction Design Project @ MCT*

League of Statistics is a website that shows you statistics about your League of Legends account, per champion you play.

→ leagueofstatistics.jarnedel.dev

Digital Patient Twin — *Industry project @ MCT & DELAWARE*

Digital Patient twin is a platform to enable continuous observation of a patient, offering notifications, realtime data, and patient analysis to a medical professional.
